No. CMD/WZ/R-APDRP P-B/11348

Date 30.05.2011

To,
All Bidders

Sub:- Amendments and Addendum to Bid documents of R-APDRP Part-B.

Ref:- Bid identification No.CMD/WZ/PD-RAPDRP/24/10095 Dt.11.05.2011.

Please refer the bid document dated 11.05.2011 uploaded on our company's website. The Prospective bidder after going through the document have made certain observation/requests. Considering the observations and inputs, following amendments to the Bid Documents are hereby issued.

(1) Technical specifications (Volume 2, Section 4, Page 282),

6.1.1 PHASE & STREET LIGHT CONDUCTORS:

The phase conductor shall be H2 or H4 Aluminium complying with requirement of IS: 8130 / 1984 or latest amendments, if any. The phase and street light conductors shall be provided cross linked polyethylene insulation applied by extrusion. The insulation shall be so applied that it fits closely on the conductor and it shall be possible to remove it without damaging the conductor. In addition to XLPE insulation each XLPE insulated core shall have BLACK PVC coating over XLPE insulation having thickness of 1 mm and identification of core shall be on coating. The insulated conductors shall generally conform to the standards IS-14255:1995

Above paragraph is amended as

6.1.1 PHASE & STREET LIGHT CONDUCTORS:

The phase conductor shall be H2 or H4 Aluminium complying with requirement of IS: 8130 / 1984 or latest amendments, if any. The phase and street light conductors shall be provided cross linked polyethylene insulation applied by extrusion. The insulation shall be applied so that it fits closely on the conductor and it shall be possible to remove it without damaging the conductor. The identification of core shall be on coating. The insulated conductors shall generally conform to the standards IS-14255:1995
